

SPANISH SOCIETY OF BIOTECHNOLOGY

ADVANCED SEMINAR ON OMICS TECHNOLOGIES

The "omics" technologies are revolutionizing the world of biology and having a deep impact on the development of new biotechnological products. The Spanish Society of Biotechnology (SEBIOT), in collaboration with the Universitat Autònoma de Barcelona, organizes this advanced seminar on omics technologies, associated with the SEBIOT Congress (Biotec2025), which will be held in July in Barcelona (UAB). The course is open to SEBIOT members, young biotechnologists, and doctoral and master's students from any science field related to biotechnology.

The course is organized in a single day and will cover various technologies and applications. The final program will be confirmed soon

PROGRAMA

Schedule	July 15 th 2025	Seminar
8.45-9.00	José Luis García (Director del Curso)	Course presentation
9.00-9.50		
9.50-10.40		
10.40-11.30		
11.30-11.50	Coffee Break	
11.50-12.40		
12.40-13.30		
13.30-14.45	Lunch	
14.45-15.35		
15.35-16.25		
16.25-17.15		
17.30	Course Closing and Diploma Award Ceremony	

Course Dates: July 15, 2025

Location: Faculty of Biosciences at UAB, where Biotec 2025 will take place.

Classroom: C3-028. Limited spots available for 40 participants.

Registration: Send the registration form to the SEBIOT secretariat at secretaria@sebiot.org before June 1, 2025.

Seminar Fee: The cost will be 45 Euros (VAT included). Free for all SEBIOT members with up-to-date membership.

Free for non-SEBIOT PhD or master's students and students from the Universitat Autònoma de Barcelona registered for the Biotec2025 congress. Please attach the registration document for the congress.
